# Hospital Election To Be Called

## Four Accidents Cause \$600 Damage

Four accidents in Medina County this week involving eight vehicles caused an estimated \$600 damage and serious injury to one person.

**THURSDAY**  
Thursday night at 6:15 a D'Hanis man, Alois Braden, 83, collided with Pauline Adkins, of Hondo, as he was attempting to turn onto Highway 90 from a private drive. Damages were estimated at \$200 to each vehicle. Braden was charged with failure to grant right-of-way; Adkins, no driver's license.

**FRIDAY**  
Friday at 10:55 a.m. Juanita Zerr, Hondo and Louis Rieber, collided at the intersection of Avenue P and 20th Street. Damage was estimated at \$75 to Zerr's car and \$20 to that of Rieber. No charges were filed in the accident.

## RAY JENNINGS GOES TO AFRICA TO HUNT BIG GAME

Ray Jennings, 1159 26th St., Hondo left Monday by air for a trip to Kenya, Africa, in search of big game.

Jennings will be accompanied on the trip by H. R. Gibson, from Dallas. The two men have been planning this African jaunt since February. Travel to Africa is all by air; in London they will board British jet liners for the final lap to the Dark Continent.

## Sunsational Weather We're Having

No need to get the heaters out this week or next, folks.

It seems Mr. Sun likes Medina County and is going to stick around for awhile, but if he wants to make a liar out of us, we are willin'—mighty willin'.

Temperatures have stayed close to the 100's this week and while scattered showers have been predicted for this area, we'll believe it when we see the evidence.

## Survey Of Polio Victims Being Made In August

A county-wide survey to discover the current rehabilitation needs of all post-polio patients will be conducted this month by the Medina County Chapter of the National Foundation for Infantile Paralysis. C. F. Schweers, chapter chairman, announced today.

The local survey is part of a nationwide project by the National Foundation to compile a roster of polio cases of all ages and degree of disability, regardless of date of onset. The canvass here is to be completed by Sept. 1.

Modern medicine has made impressive strides in developing new rehabilitation techniques in recent years. Pilot surveys already undertaken show that there are thousands of polio-handicapped in the United States who have not yet had an opportunity for medical evaluation to determine if they might benefit from these new techniques.

Some of the techniques employed today for those disabled by polio and other causes were unknown or unused as recently as 10 or even 5 years ago.

The March of Dimes organization, having scored a tremendous victory in its war on polio, does not now propose to walk off and leave the wounded behind, so long as help for them is possible. We wish to find everyone who has had polio, whether paralytic or non-paralytic. We want to know what their special problems may be, so that they may be helped to regain useful lives, if humanly possible, even though it will take a considerable period of time.

Information sought for each patient includes whether he is employed or attends school, if he can climb stairs and dress himself, whether he receives regular treatment and if he uses a respiratory aid. Information gained will be helpful to all such agencies and organizations.

Schweers has asked that all persons who have ever had polio—whether disabled or not—send their names and addresses directly to C. F. Schweers, Medina County Chapter, National Foundation for Infantile Paralysis, Hondo, Texas.

**SUNDAY**  
Sunday morning at 11:20 in D'Hanis, Sylvia Marie Mueller and Roman Garcia, both of D'Hanis, collided when Garcia stopped his vehicle near the railroad crossing. He was charged with parking within 50 feet of a railroad crossing.

**TUESDAY**  
Bobby Swartzell, 17, son of Chief of Police Orby Swartzell, suffered a broken arm when his automobile turned over near the south entrance to Hondo Air Base early Tuesday morning.

According to Chief Swartzell, who investigated the accident, Bobby's vehicle turned over after he swerved to miss a car, driven by Jimmie Richter, which was leaving the Base. No charges have yet been filed.

Once the two Texans arrive in Kenya, they will be advised what equipment to buy and take on the 30 day brush trip by white hunters. All packing and planning for the trip is being taken care of by a safari company there.

According to Jennings, there's no such thing as roughing it in the wilds of Africa. Campsites for the hunters will be selected and erected by native packers who also tend to the washing and cooking. Meals in the brush will be served on linen tablecloths, with china and silver service.

The Hondo hunter says he's in search of the Big Five: elephant, rhino, lion, buffalo and leopard. Even with experienced white hunters, trackers and gun-bearers, Jennings says there is an element of danger in hunting these animals, as they are all potential killers. However, Jennings says, "That's what makes it interesting." He has been hunting since he was a boy.

## Recreation Ends In Mad Dash

Hondo's Summer Recreation Program wound up its activities for this year Friday in a mad dash.

The final event was, in truth, a mad dash—the scheduled footraces were run in 100 plus weather.

Walking away with first place ribbon for the 50 yard dash in the 13 year old class was Ken Clapham; second place, Ken Farnsworth; third, Barry Kuykendall. Junior winners (10 and under) were Wayne Korbell, Brad Benedict and Al Rath. For the 8 year olds, Sam Bybee, Arthur Vance and Bud Jones took home the ribbons.

In the timed base running event, the best time was made by a junior, Wayne Korbell, who cut three tenths off intermediate Ken Farnsworth's 12.9 seconds. Taking second and third places in the event were Ken Clapham and Te Vincent for the intermediates; Brad Benedict and Al Rath for the juniors. In the middle class, Arthur Vance, Sam Bybee and Bud Jones grabbed the honors.

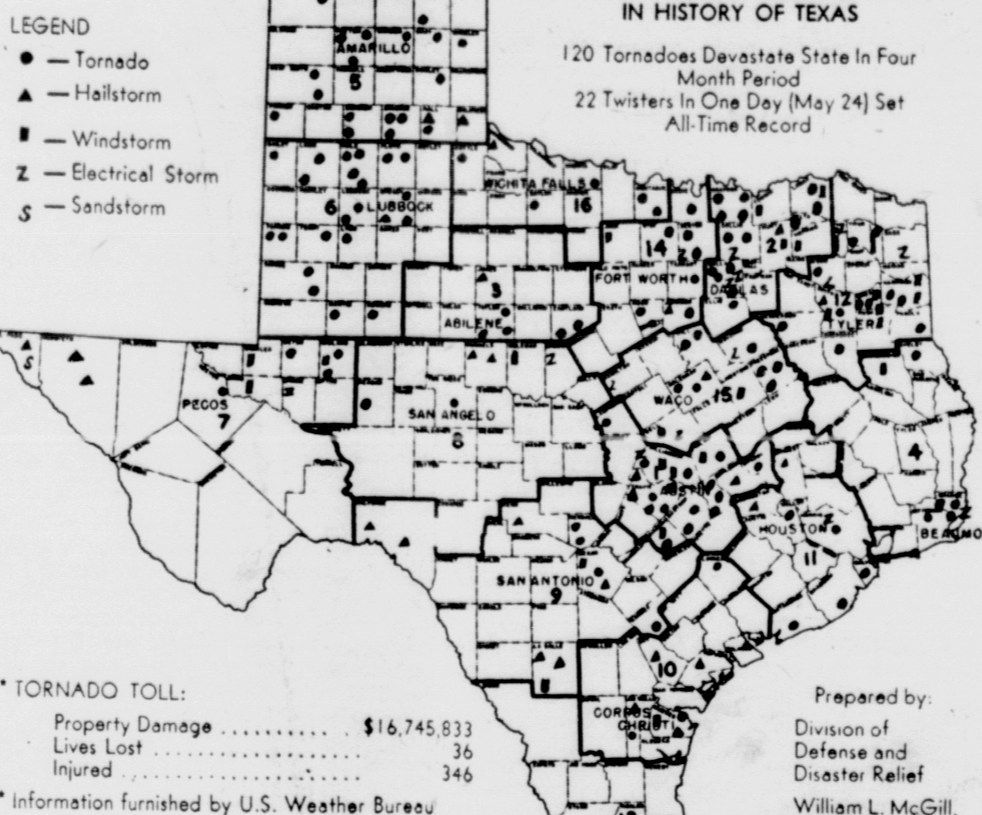

John Tondre, Vincent and Kuykendall took first place in the intermediate baseball throw for accuracy; Vincent, Farnsworth and Clapham placed one, two and three, respectively in the throw for distance.

For the juniors, Jack Hartung, John Hardy and Tom Woods got the ribbons for distance; Hartung, Benedict and Woods for accuracy.

Midjet winners for distance were Jones, Bybee and Vance; Jones, Hartung and Blake Stephens for accuracy.

# Council Discusses Parking Problem

Hondo's perennial problem, the parking situation, has reached the pesky stage once more and the mayor and city council discussed the matter at a special meeting Monday evening.

Even though Hondo has a lot of parking space around the entire block between the postoffice and court house, people working in the downtown area continue to park their cars where customers should be allowed to stop, rather than walk one block and protect their own jobs by making room for buyers.

Some employers have suggested to their employees that they not park in front of their businesses and in some cases the all-day parkers have just moved down in front of somebody else's business house, according to one city councilman.

The solution boils down to a choice between the installation,

again, of parking meters or the limitation of parking along the main business district. This latter choice would mean possibly a 30-minute or an hour parking limit in a given parking space and a traffic ticket with fine for over-staying the time.

It should be remembered that

## New Hybrid Corn Announced

A new early-maturing hybrid which produces good yields under conditions of low moisture and high temperature has been developed in the corn improvement program of the Texas Agricultural Experiment Station.

This new hybrid, Texas 38, is a yellow double-cross with ears slightly smaller than other Texas hybrids. Its plants are usually about two feet shorter than the other hybrids and the ears are borne one to two feet lower. Because of its earliness, Texas 38 escapes some insect damage suffered by medium-maturing hybrids now grown, according to a leaflet just released by the Experiment Station.

This leaflet, "Texas 38—A Hybrid for Droughty Conditions", gives a full description and background on the new hybrid. It also gives information on agronomic characteristics and recommended uses as well as comparative yields of Texas 38 and the other hybrids.

Seeds will be available in 1958. Copies of this leaflet are available from the Agricultural Information Office, College Station, Texas.

## Services Held Tuesday For Mrs. Adam

Funeral services were held Tuesday morning for Mrs. Elizabeth Mary Adam who died at the age of 93. She was a resident of LaCoste at the time of her death and the wife of the late John A. Adam.

Born in 1864 in St. Genevieve, Missouri, she came to Texas when she was 17 years of age and had lived in LaCoste since her marriage.

She is survived by five daughters and six sons, Mrs. Henry Haegelin of Rio Medina, Mrs. Celeste L. Mechler of Houston, Miss Matilda Adam of Dallas, Miss Helen Adam of Castoville and Mrs. R a y E. Kier of Corpus Christi; Ed and George Adam of San Antonio, Joe J. Adam of LaCoste, Alex J. Adam of Southton, Frank and Adolph of Houston.

She is also survived by 14 grandchildren, 18 great-grandchildren and five brothers and a sister.

parking meters were tried once before in Hondo, but after a trial period, the public went to the polls and voted them out.

The Hondo City Council would like to know the wishes of the public on this matter, so if you have an idea, tell a councilman, the mayor, or make your comments to the Anvil Herald and we'll pass them on.

## Optometrists Can See, Too

A Hondo Optometrist proved Monday night that his eyes are as good as the next fellow's by taking down the license number of a fleeing car that side-swiped his own Monday night on 14th St.

According to Dr. J. H. Jennings, a car traveling west on 14th side-swiped and caused an estimated \$32 worth of damage to his east-bound vehicle about 7:45 Monday night. Jennings took down the license number of the escaping car and reported it to Medina County Sheriff's department.

Later Monday night, a 21 year old Hondo man, Lucio Sanchez, riding in a car bearing the same plates Jennings reported, was arrested. He was arraigned in Medina County Court Tuesday, charged with driving while intoxicated, and fined \$150 and court costs.

It just goes to show—a man who prescribes glasses may see just fine.

## Catholic Club Hosts Uvalde Knights

Sunday, July 28 the Hondo Air Base Catholic Club hosted the Uvalde Council, Knights of Columbus at their monthly Communion and breakfast afterwards the meeting was turned over to the Worthy Grand Knight Leo Sturm, who explained the organization of the Knights of Columbus. Brother Jack Hill, chairman of the Fraternal Activities Committee presented past Grand Knight's Pin to John Nester. Father Croke gave the benediction.

The members of the Uvalde Knights of Columbus attending were: Leo Sturm and Milton Brady, Crystal City; Herbert Keller, Frank Martinez, Thomas Zapata, Alberto Castillo and Baltazar Ramirez, Uvalde; Jack Hill, Carrizo Springs; Martin Schawe, Knippa; John Nester, Edward Lutz, and Hubert Lutz, D'Hanis; and Henry Flory, 1st Lt. Robert F. Houck, Robert Zuberbuehler, Frank Vance, Joe Meyer, Bru Miller and Harry Filleman, Hondo.

The officers of the Catholic Club attending were: 2nd Lt. Chester J. Petkiewicz, president, A-C Robert H. Ghee, vice president, Mrs. Lilian V. Smith, secretary, 2nd Lt. Ben L. Lane, treasurer.

## Two Signatures On Devine Petitions

A total of 844 signatures were on petitions turned over to County Judge Arthur Rothe, Tuesday morning, asking that an election be called to determine whether or not Medina County is to have a new hospital.

This figure was more than double the number of qualified signatures needed. Henry Schulte, county clerk, had estimated that 350 would be enough.

Judge Rothe has stated that the Commissioners Court will order an election at their regular meeting date on Monday, Aug. 12. He said that he had contacted the bondsman hired by the court to act on this issue and that the bondsman had told him that Saturday, Aug. 31 was the earliest possible date that the election could be held. But he further stated that Aug. 31 does not appear to be acceptable to the county hospital committee because of the Labor Day weekend and that the court will set the election for Wednesday, September 4.

The committee had hoped originally to hold the election in August because federal money designations under the Hill-Burton hospital act are made in Austin early in September.

The county hospital committee met Monday night to tally the signatures and to discuss other matters pertinent to the proposed program. No representatives were present from Devine, Castroville, Rio Medina or LaCoste, as had been at the previous meeting last week. George Boehme brought in an unsigned petition from Rio Medina Monday morning, but no petitions were distributed during the week in either Castroville or LaCoste. Frank Bain of Devine phoned Monday afternoon at 4:30 to inquire when the petitions were to be turned in and stated that he would mail he two petitions—bearing two signatures, from his area since another meeting would make it impossible for anyone from Devine to come to the meeting.

A number of persons who paid their poll tax had inquired as to whether or not they could render property for taxation at this point and have a vote in the election. L. E. Pope phoned Alfred Rohrbach, county tax assessor collector, Monday night and Rohrbach said that if they voluntarily render property for taxation, it would be listed on the unrendered rolls for the remainder of the year, that they could pay taxes and thereby be entitled to a vote on the issue.

These citizens may render practically anything of value—furniture, car, or even a wrist watch. Usually the assessed valuation is about 15 per cent of the actual value and taxes are based on this assessed value.

The coolness of the surroundings didn't seem to affect the fines. The six miscreants were fined in excess of \$100 total, not including court costs.

He had heard and administered justice on several cases when six law breakers were brought to his home.

"It was too hot and crowded in my living room," chuckled Judge Kimmey, "so we moved out under the shade of an oak tree in the yard!"

## More Babies Than Ever In Medina

Births at Medina Hospital during the month of July broke all records, according to Mrs. Mary Koch, co-owner of the hospital since it opened in 1931.

In the first 28 days of July, 46 babies were born; none were born the last three days of the month. The next highest month was in September, 1953 when 43 babies were delivered at the hospital and the other high month was in September, 1955 when 41 babies were born.

Several times during last month every one of the of the six cribs was filled, Mrs. Koch said.

Mrs. Koch also said that more babies were delivered through the seven-month period from January through July than for the equivalent time in any previous year. This year, the figure was 205 and in 1953 the total was 194 for the seven months.

## Castro Needs One Teacher For This Year's Term

The Castroville School District has hired three new staff members for the coming term and is looking for a fourth.

According to Fred Bell, new superintendent of schools, a home making teacher is needed to round out the teaching staff of the Castroville school system for this year.

Already hired in addition to Bell, who came to Castroville from Petus, are Robert Johnson, from Quario, who will serve as elementary principal and W. A. Coon, from Fairbanks, Alaska, who will handle the high school principal's job in addition to some coaching chores.

Tentative opening for the Castro schools is Sept. 3; high school students are to pre-register Aug. 30, Bell said.

A public hearing 1957-58 school budget will be held Aug. 15 at 8 p.m. in the high school building.

**HAB Instructor Injured Skiing**  
Charles Green, assistant flight commander, 140th Flight, HAB was injured Saturday in a water skiing accident on Devils river near Del Rio.

Green, who is from Castroville, was struck near the eye by a tow rope snap which broke. He was water-skiing for the first time.

He was flown to a San Antonio hospital for treatment and released Wednesday.

## About The Hospital —

### JUST QUESTIONS AND ANSWERS

BY JERRY JUNE BERGER

As petitions were being circulated on a proposed hospital, a number of questions were asked by signers and some of these have been passed on to us to attempt to answer.

One was, who will run or operate the hospital? The project will be under the supervision of a hospital board of governors, and probably these governors will be appointed by the County Judge and Commissioners Court. It is the duty of this small, appointed board to locate a hospital manager or administrator, and their duty alone. Although members of the board will undoubtedly be broad minded and listen to suggestions, it is their decision to pick the person whom they feel best qualified to run the hospital.

The present 22-man Medina County Hospital Committee, would certainly be overstepping their authority if they attempted to decide who is to manage it. It is not their place to even indicate a preference.

Another question asked has been, who will receive profits, if any, from its operation? Many new hospitals lose money in their first few months of operation until they have a steady flow of room usage. This has not been true in Uvalde, however, where the hospital has operated under several administrators during the past nine years but has been operating in the black since the year it opened.

Profits are not great, but what does accumulate is sometimes used to replenish hospital costs on the real charity cases which any hospital is expected to do, even though patients are expected to pay for services when they can afford them. Other profits are set aside to allow for depreciation. As every businessman knows, even new equipment wears out eventually and has to be replaced. A well-cared for tractor may last for 20 years, but when its owner needs a new one, it is smart business for him to have saved a little bit over that 20 year period to pay for a new one when he needs it.

A few people have commented, why should I pay more taxes just to help someone else get rich? Operating a hospital is not a get rich proposition. It is usually just a little better than a break-even proposition. And on the same general topic the question has been asked, why can't a group of doctors pool their resources and build a hospital? The answer here is the same, for doctors would not get rich on building and operating a hospital. In fact, we have heard doctors say they would not have one as a gift. A doctor's duties are concerned with helping the sick and if he has to spend his time trying to keep a good staff of nurses and a dietitian or worrying about the condition of the plant or listening to petty complaints of patients who had rather be on the south side of the building instead of on the north side, he obviously has to do it by taking time that he could spend with his patients. These problems can best be handled by a hospital administrator.

And then there is that question of cost. A county official has said that on a 20-year basis, a taxpayer who has rendered \$500 in property for taxation on the county tax rolls will pay only \$1 per year as his part of building a hospital of which we can all be proud. If the taxpayer has rendered \$1000 in property for taxation, he pays just \$2 annually, or if his property is as large as \$10,000 on the tax rolls, his share would be a mere \$20 per year. Understand, these are the assessed valuations and not the value you would place on your property if you were going to sell it. Assessed valuations are much, much lower than selling price valuations.

These were the most frequently asked questions during the past few days. If you have others, ask them. We'll try to find out the answers.

## KILGORE'S CAPITOL COMMENTS

By Joe M. Kilgore

THE RESULT of the widespread public interest in cutting the Federal budget this year goes considerably beyond the money saved in this fiscal year. It has served to make everyone take a closer look into government efficiency, at all levels of government, national, state and local. It has sparked interest in government generally and every high school civics student knows that good government is found in direct ratio to public interest in government. We have had a tendency to regard government as something too big to be affected by individual voices. We find, once again, that the voice of the people is a loud and effective voice. While the budget has not been cut as much as some of us would like, it has been cut considerably and the power of an aroused people has again been demonstrated. What cuts have been made this year, what investigations have been made into government spending and what benefits will be ours in the future are simply the fruits of a renewal of individual interest in government.

A RECAPITULATION of 12 appropriations bills passed by the House shows a reduction of \$4,042,856,929 cut from the President's request of \$56,019,120,648. Some increase was made in the Senate, but indications are that a cut of about \$3.8 billion will be sustained. How much of a cut finally will be made in the Foreign Aid program is still in doubt, although indications are it will be substantial.

THE NATURAL GAS BILL may come up on the floor of the House for debate next week, although indications are that the Senate, should the House pass the bill, will not get to it before next January at the start of the new session. The House Committee on Rules granted a rule this week for consideration of the bill with eight hours of general debate and a five minute rule for the consideration of amendments which might be offered on the floor.

THE HOUSE Committee on Interior and Insular Affairs this week ordered reported my bill to authorize the Secretary of the Interior to enter a loan agreement to reconstruct and rehabilitate the Mercedes Water District. Whether the bill will reach the floor of the House during this session is still problematical, but I am still working to that end. The loan application for the Harlingen Water District for the same type of work is also getting a lot of attention from me. I hope to get it before the Congressional committee this week.

THE COMMITTEE on Armed Services this week ordered favorably reported HR 8704, which would prohibit the delivery of members of the Armed Forces of the United States to the jurisdiction of any foreign nation except under limited circumstances. There is no indication that this will reach the floor of the House during this session; however, because of the intense feeling on the subject, it is possible that it could gain rapid-fire last minute action in the House. Whether many of these matters will be considered this session is dependent on when we will adjourn, and it is still hard to set a firm date on that score.

### Part Time Farming, Part Time Working Not For Him

Editor's note: The Seco Philosopher on his Johnson grass farm has had another one of his dreams exploded, his letter this week indicates. He probably has plenty more.

Dear editor:

A lot of experts who don't know that the farm problem is sort of like a family problem — you can solve one problem today, but there'll be another one tomorrow — have now come up with another solution.

According to them, the answer to the farm problem is part-time farming.

Now when I first read this, I came to attention. That is, I laid my newspaper down in my lap, rested both arms on my chair and looked out into space. Part-time farming is what I've been preaching and practicing for years, and I was proud to know the experts in Washington had finally come around to my way of thinking.

But when I returned to my paper and read on, the worse the thing got. Those experts and me are talking about two different things. According to them, part-time farming consists of farming part of the time and working in town the rest of the time. If a man can't make ends meet on the farm, he can take up the slack by working in town too.

That's not part-time farming, that's full-time working.

You might as well suggest that if a man can't make a living working one farm, let him work

### STILL QUOTING THE STORY— A TEXAS PIONEER

"This remarkably successful shot has never been recorded, or if it has I am unaware of the fact, but the tragic act is well known to others now living who will vouch for the truth of my story. Perhaps they know more of the circumstances than I can recall, because Mr. Bowles has many relatives living in Uvalde County. He was killed by Indians in the Sabinal Canon about two years after his adventure, probably the same tribe, who murdered him to avenge the slaughter of their warriors.

"There is no comparison between the number of Indians that were killed by white men that I know of, and the number of white men that were killed by Indians.

"Mr. John Bowles killed three Indians in Uvalde County, Xavier Wantz killed one Indian and mortally wounded another in Medina County. An Indian was killed by the first settlers at Quihi in Medina County. Nic Haby killed an Indian in Medina County. Ed Tschirhart killed an Indian in San Saba County, near Fort McKavitt. Big-foot Wallace killed two Indians in Medina County. All these Indians were killed by men with whom I was well acquainted.

"The following are some stories about Big-foot Wallace: One time he brought a fifteen-year-old Indian who was probably on his first raid and got lost from his companions and had wandered towards Big-foot's ranch and came in contact with his dogs and to save himself, climbed a tree. Big-foot, hearing the bark of his dogs, went at once to see what kind of an animal they had treed, and to his surprise found a half frightened to death young warrior with his bow and arrows strapped to his back, captured him and put him on his horse in the saddle in front of him, and tied his feet under the horse's stomach and carried him that way to Castroville. Some one in the crowd said, 'Say, Bigfoot, give me that Indian.' Whereupon he said, 'No, this is my Indian; if you want an Indian go on' get you one, there are plenty of them left."

"Another story that I recollect well happened just before the war, where Big-foot was out horse-hunting and riding a mule when he came upon a fresh trail that was leading in a northerly direction over a divide. He followed the trail to find out if the Indians took the same direction on the other side of the divide, in which case it was his intention to hurry on to Castroville, where he expected to get enough men to cut them off if possible, but as he reached the top of the divide and looking on down the slope he saw to his surprise about

### Part Time Farming, Part Time Working Not For Him

two. If a bank clerk can't make a living at the bank in the day time, let him take on the job of night watchman too.

There's nothing wrong with part-time farming, but the time to do it is not after you get off work from a job in town.

I know a lot of farmers are doing this, and some of them seem to be making out all right, but the solution just doesn't appeal to me.

What I want the experts to do is tackle the farm problem from within the boundaries of the farm. It doesn't take an expert to tell me if I don't make enough farming, get a job in town. Where do you think half the barbers in this country came from? They fled the farm.

I don't know about the rest of the farmers, but what I want is part-time farming with a full-time living. Farming ought to be like a business tycoon going into government service. No conflict of interest. He ought to give up one or the other, according to Congress, and that's the principle I want to approach the farm problem on.

Yours faithfully,  
J.A.

## PERSONAL APPEARANCE

By JERRY JUNE BERGER

### Washington Newsletter

The debate on the so-called "civil rights" bill has been one of the most enlightening in Senate history.

The bill — written by Attorney General Herbert Brownell — came to us widely advertised as a "right to vote" bill. Thoughtful Senators trained in the law — Richard B. Russell of Georgia, and Sam Ervin, of North Carolina — refused to take it advertising at face value. They discovered that it:

Resurrected a forgotten reconstruction statute passed in the days when Thaddeus Stevens was riding high.

Permitted the Attorney General to go into Federal courts and take out an injunction against anyone he considered to be infringing upon "civil rights."

Authorized the President to call out the Army, the Navy and the militia to enforce the injunction.

In blunt language, this so-called "moderate" law would revive the blackest page in American history — the Reconstruction era.

Those backing the law claimed at first that these powers were not in the bill. But they had to back down under the weight of compelling arguments. They retreated to another line of defense. They insisted that the President would not "use" such powers.

This argument did not impress the Senate. Few members could see the wisdom of voting unwise powers to a President on the theory that he would save us from our own folly by inaction.

By a vote of 90 to 0, the Senate killed the "troops" section. At the time this is written, some backers of the bill are looking for a "face saving" compromise. But the mood of the Senate is to reduce the measure to a right-to-vote bill — which is what it was supposed to be anyway.

I wish you would write me and give me a few suggestions you have about issues and problems we face. I get strength from your counsel.

This completes the first chapter of Mr. Santele's Book. It will be noted that the chapter deals for the most part, with incidents connected with the author's boyhood. The book is somewhat voluminous as it contains twenty-nine Chapters and an Appendix.

# Highlights and Sidelights FROM Your State CAPITOL

## AUSTIN

Labor unions in Texas now are welded into one 300,000-member organization.

The mammoth merger was accomplished at a joint AFL-CIO convention in this Capitol City. Sharp internal disagreements heartened those who fear the potential political power of such a massive group.

A resolution, recommended by labor's Civil Rights committee, condemned the 55th Legislature for passing "immoral and undemocratic" laws concerning school gates balked. Finally, the convention compromised by adopting the national AFL-CIO civil rights plank, worded in a more general language.

Delegates also criticized Texas' daily newspapers; the Texas Tech Board of Directors; the Republican Party; and highway contractors.

Endorsed were a state income tax on corporations; an increase in individual income tax exemp- tions; federal aid for school con- struction; higher pay for teach- ers; and honesty among union officials.

AFLman Jerry Holleman was elected president. CIOer Fred Schmidt was chosen as secretary treasurer.

With legislative opposition to the special session weakening under Gov. Price Daniel's deter- mined stand, attention now turns toward what the lawmakers might enact.

Sen. Henry B. Gonzalez of San Antonio has drafted a strict lobby control measure. It is patterned after the Federal Law. It would require registration of all per- sons seeking to influence legisla- tion, for pay. Also it calls for a detailed accounting of money used to influence legislation. . . where it comes from, how it is spent.

It would hang a heavy sword over the head of any lawmaker or lobbyist found guilty of a bribe arrangement. Penalty up to a \$25,000 fine and 10 years impris- onment. Corporations involved would lose the right to do busi- ness in Texas.

**SALES SURGE SEEN**  
Experts foresee a "slow but strong upturn" of production and marketing in Texas for the last quarter of the year.

It might even break last year's record, despite the restrictions on credit. So states the UT Bu- reau of Business Research.

June retail sales dropped five per cent from May. But totals for January-June, 1957 were two per cent above 1956.

Home modernization has done "surprisingly well." But comple- tion of new homes in 1957 is ex- pected to fall some 10 to 20 per cent below last year.

**EMPLOYMENT TO CLIMB**  
More jobs, better pay, is the outlook for Texas workers.

Texas Employment Commis- sion forecasts a small rise in job-holders during August, fol- lowed by the usual steep jump from increased activities in Septem- ber.

Early summer brought the cus- tomary glut of workers as schools poured out thousands of gradu- ates and vacation job-seekers. In addition, factory jobs dropped somewhat as automobile assem- bly plants and aircraft companies cut back.

However, the same period brought good news to factory workers as average weekly wages jumped some \$2. In the higher brackets were workers in coal and petroleum products, up \$4.76 to \$113.16 per week, and those in chemicals, up \$2.49 to \$103.34 per week. Less fortunate were those in apparel and fabric products, up 37 to \$43.92.

**NO MAGIC EXPECTED**  
Rebuilding public confidence in Texas insurance cannot be done "by any magic touch or wave of a wand, not overnight nor within a few months."

It will take "painstaking plan- ning, organized effort and com- petent performance," said Joe P. Gibbs, member of the newly re- organized Board of Insurance Commissioners.

Board members are reconciled to operating in a "show window," said Gibbs, recalling the recur- rent troubles that resulted in a wholesale legislative overhaul of the department.

"We recognize that the public has a right to look in on us to see what we are doing to remove the clouds of doubt," Gibbs stated.

**CONSTRUCTION UP**  
Construction authorized in Tex- as for the first half of 1957 is five per cent higher than for 1956, according to the UT Bureau of Business Research.

Foremost among the cities making gains were Midland, Houston, Amarillo, Lubbock, Fort Worth, El Paso and Odessa.

**FARM OUTLOOK**  
Where rain has not fallen re- cently, outlook for grass and feed crops is poor, reports the Texas Agricultural Extension Service.

Timely showers helped pastur- age and late crops in some areas. But were too late for corn and feed.

**DRYS LOSE**  
Anti-prohibitionists still are rid- ing high in local option elections. So reports the Texas Liquor Control Board.

Orange and Culberson Counties favored continued sale of alco- holic beverages by one-sided margins.

**VOLUNTARY CUTS**  
Texans seem to have adopted a dubious "wait and see" atti- tude toward Pres. Dwight D. Eisenhower's request for a volun- tary 10 per cent cut in oil im- ports.

For months Texas officials and industry leaders have sought White House help to restrict the flow of foreign oil into the coun- try. They blamed "excessive im- ports" for the dwindling demand for Texas oil.

State oil allowables slipped month by month to an all-time low. State revenue estimates, heavily dependent on oil taxes, were dragged down correspond- ingly.

After study by a cabinet com- mittee, the President's advisory asked importing companies east of the Rockies to reduce crude oil imports to 10 per cent below the 1954-56 average. Implied was quotas would be imposed if the voluntary program doesn't work out.

Gov. Price Daniel called it "a step in the right direction." But, he said, the step "does not go as far as is necessary to meet the present emergency." He suggested there should be no waiting period before applying positive gov- ernment controls and that 10 per cent was not a "realistic reduc- tion."

WONDERFUL WORLD  
It's a wonderful world we're living in.

Modern day science is making it easier every day to do even the simplest things in life. I read he other day about an oven that will cook a whole meal in mi- nutes — electronically. And there are television sets which can be carried easily from room to room, and radios that fit into your pocket.

The telephone company is keep- ing pace with modern times, too. Take the telephone itself. We've got wall telephones, hang-up tele- phones and portable telephones — the kind that you can "plug in" wherever you like.

And we've got telephones with a volume control which can be regulated for low, medium or high — the kind which is espe- cially helpful for people with im- paired hearing. There are tele- phones in eight decorator colors, too — besides black.

But that's only the beginning. Our "Speakerphone" permits the user to talk with both hands free since it's equipped with a micro- phone and loudspeakers.

A new and popular time-saver is the Answering and Recording set. This machine answers calls while you're away, and records your caller's message.

Those are just a few of the items that are available today, and you can expect even more

new ideas in the future. We are keeping your telephone service in tune with modern living.

**HOT WEATHER TIP**  
Plenty of people now days are trying to beat the summer heat by staying outdoors. With back- yard living so popular, I'd like to suggest that you allow your friends a little more time to answer the next time you call.

We suggest letting the tele- phone ring ten times — that's about a minute — before you hang up. That way, the person you are calling might find it easier to get to his telephone to answer.

If you spend lots of time out- doors, you'll appreciate this lit- tle added courtesy when friends call you, too. Nobody likes to make a mad dash when the telephone rings, only to find there's no one on the line.

**SPEED YOUR CALLS**  
Many of our customers have found out that their calls go through a lot faster when they call by number. In fact, we think you'll discover they go through twice as fast that way.

If you don't know the number, the operator will be glad to ob- tain it for you — then jot it down for use later on. Blue Books are just the thing to keep your num- bers in, too, and they are avail- able without charge at the tele- phone business office.

Call by number. It's twice as fast.

## PEARL BREWERY BREAKS 71 YEAR SALES RECORD

Shown left to right are William operations; H. B. "Pat" O'Brien, vice president of sales; and Har- ry C. Haegelin, master brewer, holding the 1,401,865th case of Pearl beer that has just come off the Pearl Brewery bottling lines for the month of July, which re- presents the equivalent of 33,644,760 twelve ounce bottles and cans. This sets an all-time high of Pearl beer sold in any one month in the history of the brew- ery.

According to Datus E. Proper, Executive Vice President, and General Manager of the Pearl brewery, the Pearl brewery breaks its own all-time sales re- cord, selling 101,754 barrels of Pearl beer during the month of July. This represents 1,401,865 cases of Pearl beer, which is equivalent to 1,085,314 bottles and cans of Pearl beer sold every day during the month of July, an all-time record of beer sales. Pearl beer continues to be the first in sales in Texas.

Mr. Proper, commenting on this all-time sales record said, "Year after year, comparative months of each year, Pearl sales, have shown a constant increase. This increase has been in both bottles and cans.

"We are consistently striving to produce the finest beer that can be brewed in the most mod- ern and up-to-date plant. The five brewmasters and the chem- ists who have supervision over the brewing and aging and the shipping department are proud of this great sales record, which in reality is the consistent growth of the Pearl brewery and due to the public's acceptance of prem- ium quality Pearl beer."

ABOUT YOUR HEALTH

A weekly public service feature from the Texas State Department of Health, HENRY A. HOLLE, M.D., Commissioner

One of our most important public health enemies in America today is tooth decay, a virtually incurable chronic disease which must be prevented if it is to be conquered at all. The ailment is so widespread that it involves 95 of every 100 persons and is still increasing.

It is estimated that there are now one billion cavities in the mouths of Americans, mostly children of elementary school age. And for every cavity a dentist fills, six are left unfilled because of failure to visit a dentist.

Dental authorities say the situation is now so acute that at its present rate of increase, within 10 years decay will have turned us into a nation of dental cripples.

Children develop cavities at about the same rate as do adults — approximately one per child per year. But whereas one-third of the adult need for fillings is being met, only one-fifth of the cavities in children's teeth are being repaired.

Perhaps the reason is that so many parents still cling to the totally false notion that so-called "baby" teeth are unimportant because they are temporary. The frequent result is that good dental health for children is still a relatively scarce commodity.

There is one positive step all parents can take to avoid a fate of toothlessness among their children. It's a simple step, requiring only that the youngsters be taken to a dentist for tooth and gum inspection before being enrolled in school each fall.

The dentist will follow a careful routine in making the inspection. He will painlessly probe all tooth surfaces, looking for signs of impending trouble. Using an

ingeniously simple little mirror, he can check even the most difficult-to-get-to corners, removing accumulations of "tartar," the name given to incrustated salivary mucous and food residue.

44If spots of decay are found, he will remove it and fill the cavity with a material called "amalgam," a combination of mercury and bits of silver. Or perhaps he will choose a porcelain cement, also in use as a filling material.

Before the visit is concluded the dentist will have tutored the youngster in good dental hygiene at home — such things as when and how to brush his teeth, and how to make an excellent dentifrice from baking soda or table salt.

When enough children have received such instruction, and are encouraged by parents to follow them, we will be well on the way toward avoiding the fate predicted for us: that within a decade we will be a nation of dental cripples.

State Students May Get Tuition Hike Waivered

Students who are residents of Texas will have until September 20 to file applications for the "hardship" waiver of the \$25 per semester tuition increase voted by the 55th Legislature.

Students whose applications are received after August 15 should be prepared to pay the full \$50 per-semester tuition fee, but will receive a refund of \$25 if their applications are acted upon favorably.

The tuition act authorizes the granting of \$25 per semester tuition waiver on the basis of demonstrated financial need. In determining financial need, consideration must be given to the financial capacity of the parents, and to the student's own efforts to finance his education as evidenced by part-time jobs, and loans from private sources.

No general revenue appropriations were made by the legislature to state colleges and universities for the tuition waivers, but each institution was directed to grant waivers of the tuition increase — \$25 each semester — in cases of need, up to a fixed percentage of their estimated total local fund receipts.

## SEED FOR THOUGHT

By Luther Norman  
God said to Adam, of the tree of the knowledge of good and evil, "In the day that thou eatest thereof thou shalt surely die." (Gen. 2:17) Then the serpent, which was "more subtle than any beast of the field," (Gen. 3:1) came along and said, "Ye shall not surely die." (Gen. 3:4) Wasn't he a devil? He takes God's word and adds a "not" and makes it mean the very opposite of what God said. I'd be afraid to do that, wouldn't you? Look! Jesus said, "He that believeth and is baptized shall be saved." (Mark 16:16) Now there's a very popular old saying, "I believe one is saved before and without baptism." Then Jesus should have said, "He that believeth and is not baptized shall be saved." Can a man believe both of the above statements? Which of them is really true? They mean opposite things. I believe what Jesus said is the truth. Do you? If not, I feel afraid for you, for Jesus said, "He that believeth not, shall be damned." (Mark 16:16) If I do not believe everything that Jesus said, I do not believe he is the Christ. To dispute what he said is to reject him as my Lord.

still a better hope of right" than any other method of determining the truth in a criminal case.

It is time to think about Thomas Jefferson. Clever lawyers have finally devised an adroit method to by-pass the jury system. They are attempting to write this method into the law under the name of "civil rights."

In its present form, the "civil rights" bill would:

Enable a Federal District Attorney to go into Federal court when he believes someone is to be deprived of a voting right.

Enable the Federal judge to issue an injunction against the acts which the Attorney General suspects may happen.

Enable the Federal judge to decide without a jury when the injunction has been violated.

Enable the Federal judge under criminal contempt proceedings without a jury to assess fixed jail sentences and fines.

In other words, the Federal judge — in each individual case — makes the law, decides when it has been violated, tries the defendants and fixes the penalties. All of this takes place without a jury.

An amendment has been drawn by three Senators — O'Mahoney of Wyoming, Kefauver of Tennessee, Church of Idaho. All three are "liberals." All three believe in voting rights. But they also believe that a man should not be branded a criminal without the opportunity to state his case before a jury.

That is the sole issue involved in the jury trial amendment. Nobody objects of the courts having full power to enforce legitimate decrees and orders. Nobody objects to adequate safeguards for the right to vote.

But man of us object to devious schemes to convict men and women under criminal contempt without trial by jury. That is why we support the O'Mahoney-Kefauver-Church amendment.

## SOIL CONSERVATION DISTRICT NEWS

## OUR SOIL ★ OUR STRENGTH

The old saying "conservation pays off" has been showing its signs during the past dry weeks in the Medina Valley Soil Conservation District. The one sign noticed by everyone is that the creeks and springs have been running again lately. Farmers and ranchers from different points throughout the district have reported that springs which had been dry for several years are flowing again. This can be attributed to the cover of grass that is on our rangeland today. At last there is something on the soil to help hold back the rainfall and release it slowly through the springs over the district. This pleasant condition can be maintained if farmers and ranchers continue to apply conservation on their farms and ranches.

## Death

Mrs. August Mumme

Mrs. August C. Mumme, descendant of a Medina County pioneer family, passed away Tuesday night, July 30, 1957, at Medina Hospital after suffering a stroke Tuesday afternoon.

The daughter of Pocke Saathoff and Rosa Winkler Saathoff, Mrs. Mumme was born June 1, 1882. She was baptized Lina Maria Henrietta Saathoff on November 19, 1882 in the New Fountain Methodist Church and was confirmed in the same church on March 5, 1885. She remained a life-long member of the Methodist Church and at the time of her death was a member of the First Methodist Church in Hondo, a life member of the Missionary Society and belonged to the Bassett Circle. On March 23, 1901 she was married to August C. Mumme in the New Fountain Methodist Church.

She is survived by her husband, two children, Clarence H. Mumme of Hondo and Mrs. Lillian Peavy of San Antonio; three grandchildren and two great-grandchildren. Two sisters, Mrs. Anna Schneider of San Antonio, and Mrs. Willie Weynand of D'Hanis, and two brothers, Robert Saathoff and Marshall Saathoff of Hondo.

Funeral services were held in the Horder Funeral Chapel at 3 p.m. Thursday, August 1, and interment was in Oakwood Cemetery with the Rev. H. S. Good enough, Jr. officiating.

Pall bearers were Chester Saathoff, Raymond Mumme, Julius Schmidt, Walter Mumme, Erwin Weynand and Milton Schneider, all nephews of the deceased.

## MONEY AND BANKING

In Everyday Living

### "CAN YOU MATCH THIS?"

Thus, traditionally, the homemaker asks the house painter, handing him a scrap of material. He will do his very best; but his version of a match may be worlds apart from hers. To avoid disappointment with the final result, many a homemaker now solves the color problem by choosing a premixed paint from among the many hues now available... When it comes to the problem of financing home improvement work economically, many a local family solves that by borrowing at our bank. Why not talk over your project with us?

**IT WOULD BE A SHOCK** to discover that you had lost your wallet or purse, containing a good round sum of cash with which you were going to pay a

bill. The odds would be against your ever seeing the money again! If, on the other hand, you had drawn a bank check to pay that bill and had lost it, you would still have recourse to a stop payment order. The order would describe the lost check fully and instruct your bank to refuse to pay it. There you have just one of the safety features of paying by check—and safety is just one of the advantages of a checking account!

**"E" BONDS: NOW, HIGHER INTEREST — FASTER.** Series "E" United States Savings Bonds purchased after February 1, 1957, pay a return of 3 1/4% when held to maturity; reach maturity in only 8 years and 11 months. Here is one more good reason to buy Bonds! You can buy them at our bank.

## Glennis Stein Completes ROTC Camp

Cadet Glennis W. Stein, son of Mr. and Mrs. Alfred J. Stein, and final week of the artillery ROTC summer camp at Fort Sill, Okla. Monday July 29. After five weeks of intensive field artillery training, the cadets will test themselves in a final two-day field exercise in which both ROTC battalions will hold a joint field firing exercise.

The past five weeks of training have been designed to prepare the cadet for this final week of the ultimate test of his effectiveness and of the effectiveness of the training itself. He has fired the many small arms used in an artillery unit and has also fired several missions on the 105-MM Howitzer itself, on the Fort Sill ranges. He has completed classes in land mines, chemical and atomic warfare, anti-aircraft artillery firing and many other phases of modern combat. Through demonstrations he has been made familiar with every weapon of the field artillery, including the 280 MM atomic cannon. The artillery and missile center, Fort Sill, has also presented many other demonstrations in correct procedures for conducting reconnaissance, selection and occupation of artillery positions.

16 colleges and universities are represented at the camp and their students, at camp's closing, will leave Fort Sill for homes all over the United States, and the District of Columbia.

Members of St. Ann's Society of Our Lady of Grace Church are sponsoring their annual party, Sunday night August 11 at 8 p.m. on the church pavilion in LaCoste. Everybody has been invited for an evening's entertainment.

Mrs. T. J. Furniss, teacher at LaCoste school returned Friday from a vacation to Austin and Shreveport, La. On her way back she stopped over with the A. C. Atkins in Belton. Monday she departed for a trip to California and Hawaii for the month of August.

Little Bobby Onion of SA spent the weekend in the R. J. Mangold home.

M&M Weley Hutzler, Garry and Peggy are spending their vacation on the coast this week.

M&M Lee Henze and children and A. E. Salzman of SA spent an evening with M&M A. N. Mangold on Rt. 4, SA Tuesday.

M&M M. E. Peters and children of SA were weekend guests in the Otto Bippert home and Leo Bush's near LaCoste.

Capt. and Mrs. A. B. Peikert and daughter, Laura, of Pearson Rd., have moved into their new home in the Northeast Park Addition in SA. Laura will teach in the Northwood School.

M&M William J. Engelbrecht and sons of SA left Friday night on a few weeks visit with his mother, Mrs. Nellie Engelbrecht in Carthage, Mo.

Leo Jungman and sister Gertrude of Rt. 9, SA spent several days in Markham with their sister, Mrs. Flossy Winters and sons. Mrs. Winters has been quite sick, but is doing fairly well at present.

M&M W. R. Flynn, of SA spent the weekend with her mother and

When I consider Thy heavens... the moon and the stars which Thou hast ordained; What is man, that Thou art mindful of him?—(Psalm 8: 3,4).

How almost unbelievable—but how wonderful—it is that Almighty God, Creator of all the vast universe should none-the-less, in infinite loving-kindness, have heed of even the least of us mortals!

## THE RECORD SPEAKS FOR ITSELF!

The Texas beer facts show that PEARL Beer is preferred over all other brands. Official records of the Texas Liquor Control Board show that PEARL CONTINUES TO LEAD IN SALES of beer to Texas consumers for the first six months of 1957... and by a wide margin!

Already this year, Texans have enjoyed over half a million barrels of PEARL Beer (more than 164 million bottles and cans) and its popularity increases daily.

The PEARL Brewing Company, a Texas institution established in 1886, is humbly proud of its enviable reputation, and grateful for the enormous public acceptance of its product. PEARL is a dedicated firm, taking sincere pride in brewing consistently the finest product possible, to complement your pleasures in life.

## YANCEY NEWS

By Mrs. Harrison Wilson

The Yancey School Board expects a very good school year, beginning September 2. They have made many improvements in the school plant this summer and have completed their faculty.

Teachers for this year are:

Mrs. Milton Haegelin, first grade; Mrs. Howard Gilbert, second grade; Mrs. Rudolph Duncan, third and fourth; Mrs. Rebekah Franklin, fifth and sixth; Milton Haegelin, seventh and eighth; Mrs. Clarence Muennink, homemaker; Mrs. Mildred Allen, English and history; and Joe Cohnell, agriculture and science. William Moore, superintendent will teach mathematics.

Mrs. Emil Muennink of Hondo visited M&M Henry Faselers Saturday afternoon.

M&M Leroy McCoughan and Jim of SA spent Saturday night and Sunday with Mrs. E. E. Wilson.

Miss Dora Mae Wilson spend Sunday with the Jim Ambersons.

Mrs. Norman Gray and baby of Cotulla attended the shower for Miss Jeanie Mofield Saturday and Sunday and spent Saturday night and Sunday with the W. B. Meltons and Mrs. Gray.

Miss Jo Nell Wiemers and Miss Flossie Gerdes of SA attended the M&M Fred Allen Jr., Martha Nell and Doyle of Campbellton spent the weekend with the E. T. Wiemers. Mrs. Allen attended the shower for Miss Mofield.

M&M Wayman McAnelly, Don, Jackie, Ray and Linda are on their vacation and are visiting the E. T. Wiemers and G. C. McAnellys. Saturday night Linda spent the night with the Wiemers while they took the little boys to spend the night fishing. Since his was the first time the boys had ever camped out, you can imagine how excited they were to get off. (I'm wondering how they feel today.)

M&M Stephen Roberts of SA were guests of M&M Ed Faselers. Sunday guests of M&M S. P. Childress were M&M Sam Darby of SA, M&M Norman Gray and baby of Cotulla, M&M W. B. Melton and Mrs. Gray.

Guests of M&M John Harding this weekend were M&M J. F. Campbell and Mrs. Ora Ivory of SA. Mrs. Ivory and Mrs. Campbell are sisters of the Hardings. Also visiting the Hardings was a nephew and his family, M&M Ben Devila.

Other guests were her brother and family, M&M Oscar Keylich of Floresville. The Keylicks came to see their son Isaac who is spending the summer with the Hardings.

## ABOUT YOUR HEALTH

A weekly public service feature from the Texas State Department of Health, HENRY A. HOLLE, M.D., Commissioner

AUSTIN — Summer-time is barefoot-time. One of the joys of summer vacations for small boys — and small girls too — is to be able to go about their business sans shoes.

What adult can say that he found no pleasure in mud oozing between his toes or the coarse grass tickling his feet?

However, shoes are basically a protective item of clothing, and when they are not worn, the protection is removed. For that reason each summer the incidence of foot injuries to children goes up.

These injuries are varied, but usually they are abrasions, cuts or punctures.

Prompt action and a hurried trip to the doctor or first aid kit is usually all that is required to set things right.

But oftentimes there is a hidden spectre waiting to complicate what may appear to be a simple little glass cut or nail puncture. This spectre is tetanus, commonly called lockjaw.

Lockjaw is an acute disease of the nervous system caused by poisons from wounds infected with tetanus bacteria. These organisms, Clostridium tetani, are found in the soil, especially in the feces of domesticated animals.

Contrary to popular belief, tetanus is not restricted to farm areas. Any domesticated animal, including cats and dogs, are capable of carrying the organisms.

The tetanus bacteria cannot survive well in open air, but thrive in closed wounds, which they enter through breaks in the skin, establishing themselves in dirty wounds resulting from all sorts of accidents from highway accidents to the most trivial penetrating wound.

The incubation period ranges from two to 50 days after contact with the germ. The first signs are often stiffness in the neck and jaw, sometimes preceded by chills, fever and stiffness of the muscles near the original wound.

In time, if left unchecked, tetanus causes severe spasms involving the entire body and may result in death.

Fortunately serious damage from the infection may be avoided through immunization with tetanus toxoid and should be included in the routine vaccinations of children, with an occasional "booster" to insure immunity.

Barefoot-time is happy time if your child is protected, but if he should suffer a foot injury from a cut or puncture, take him to the physician. It may be worth his life.

## Suehs Says Thanks; Sale Ends August 10

The response from folks who read our ad in last week's Anvil Herald was great, and we thank all those who phoned from D'Hanis, Devine, Jourdan and San Antonio. We had to hire the Acme Delivery Service to help deliver appliances direct from the G.E. warehouse, but if you'll bear with us, we'll get the merchandise to you. One lady in San Antonio knows — as well as her neighbors — because we delivered a 13 foot refrigerator-freezer combination at 11:30 Monday night.

These "Mexico trip" prices will last until August 10th, and if you want to save money on GE Filter-Flo washers, refrigerators, freezers, ranges and dish-washers and especially on television, call 75 in Castroville or come to see Gene Suehs at his Highway Service Store.

We hope to make that trip to Mexico City and Acapulco, and if you have been planning to buy any GE appliance, now is the time to see about it. We're trading night and day, and making the best deals you'll find anywhere. (Adv.)

## What's Behind Your Policy?

Before you insure your car, home, family, or business anywhere, find out what's behind the policy!

Is the company financially strong?

Does it operate coast to coast?

Does it have a resident agent here in town who can look after your interests?

Is the policy non-assessable — so that you can be sure you won't be called on to pay additional premiums later on?

Hartford Accident and Indemnity Company Insurance can satisfy you on ALL of the above counts—that's why we're proud to be able to offer you such protection and service.
